

## **BORDER UNION 2012**

**It was a privilege and a pleasure to be awarding my third set of CC's at one of my favourite shows. Sadly the weather was not on our side and poured down for most of the day. Accordingly we were in a small wet ring in a crowded tent which was not to the liking of some exhibits.**

**Though the entry was not large numerically it certainly wasn't short on quality and there were some close and difficult decisions to be made. That said I thoroughly enjoyed my day and hope the exhibitors did too.**

**The King Charles like any breed needs to be healthy & happy but we should also bear in mind its purpose, they were bred to be ladies pets and comforters so need to be beautiful too. One of the things that makes a Charlie so appealing is the wide jaw supporting the beautiful face cushioning that gives the correct finish and the large dark eye that gives the wonderful expression that is unique to this breed and makes you want to pick it up and kiss it. Sadly in some cases we seem to be losing the cushioning and then the correct expression is lost.**
