Best Breeder :

It is always difficult to write a critique on the whole world views it in the dog press. For the good of breed I believe it would be far better if critique is given to the exhibitor on the day, warts and all so that they can begin to understand the problems with the dogs and challenge the judge if they wish. This works on the continent and is fairer way.

There were a number of dogs of incorrect type. It is easy to be fooled by a sweet looking bitch or a smart looking dog that possibly has won a lot, but is not of breed type. There were a number of dogs with extremely poor movement and therefore poor construction; but of the correct type (how disappointing!). The worst was dogs of incorrect type and poor construction/ movement. This is the order I selected my placing in with good type and construction/ movement being at the top of the list. There were dogs that got first places, because of correct type and construction, but had minor faults.

I thank the exhibitors and exhibits who just carried on despite the water deluge suddenly falling from the roof, in to the ring just a few feet from the judging table.
